

NOTICE

**TO: Licensees of Blue Mold-type cheeses (HTS Additional U.S. Note 17) and Cheddar-type cheeses (HTS Additional U.S. Note 18)
Country of Origin -- CHILE**

SUBJECT: Globalization of License(s), July 12, 2007

Pursuant to Section 6.32 of Import Regulation 1, Revision 8, the Licensing Authority has determined that entries of the above cheese articles from **Chile**, subject to tariff-rate quotas (TRQs) set forth under Additional U.S. Notes 17 and 18 of the Harmonized Tariff Schedule of the United States, are likely to fall short of **Chile's** TRQ allocation for these articles in 2007.

Therefore, license(s) to enter the remaining balances of these cheese articles will be globalized as of the close of business July 10, 2007. Beginning on July 10, 2007, applicable licensees may enter **100 percent** of their remaining unused licenses for Chile blue mold-type cheese (license code B) and cheddar-type cheese (license code C) from **ANY** country, including Chile, for the remainder of the year.

The U.S. Customs and Border Protection on-line entry system and the Department's DAIRIES System have been adjusted to take account of this globalization. If you wish to obtain information on your license balance that was globalized, please access the DAIRIES System.

To obtain the globalized balance, if the first number of your license was 4, the new globalized license number will begin with 8. For example, if your license number was 4-D -999-5, your new globalized license number is 8-D -999-5.

The requirement that a through bill of lading be presented at time of entry (Section 6.29) remains in effect.

In addition, importers are reminded that the Import Regulation requires that: 85 percent of each license be utilized by December 31, 2007; the deadline for voluntary surrender of unused license amounts is October 1, 2007; and duty-paid entries under 2007 licenses must be made before January 1, 2008. Thank you.
